### **CRITICAL ACCLAIM FOR THE HANDBOOK...**

**David Cutler, Otto Eckstein Professor of Applied Economics, Harvard University:**

“Understanding global health economics and policy has never been so important. This remarkable three volume collection...is sure to become the standard on health economics and health policy around the world.”

**Tim Evans, World Bank, Senior Director of Health, Nutrition:**

“These three volumes provide a comprehensive collection of cutting-edge, evidence and analysis on some of the most important economic issues facing the health sector written by some of the best in the field. This **Handbook** is an invaluable contribution to the field of health economics.”

**Agnes Soucat MD, Phd, World Health Organization, Director Health Systems, Governance and Financing:**

“This impressive opus is setting the tone in Global Health Economics for years to come. A reference book with a guaranteed extended shelf life for both learners and doers.”

**Valerie Paris, Senior Economist, OECD Health Division:**

“The comprehensive range of topics addressed, the evidence-based approach and the eminence of contributors makes this global handbook a ‘must-have’ resource for newcomers in the field as well as for established experts.”

**Julian Le Grand – Professor, London School of Economics:**

“An outstanding collection of some of the best work in global health economics. Indispensable.”

**Tom Rice, Distinguished Professor, UCLA Fielding School of Public Health:**

“Never before has such a wide-ranging and thorough collection by leading scholars in global health economics been assembled. Scholars and policymakers alike will gain key insights into this burgeoning field.”

**David de Ferranti, President and Co-founder of Results for Development:**

“An impressively comprehensive and wide-ranging compendium of information, insights, and thoughtful opinion, this compendium fills an important gap, bringing together perspectives from economics and health thinkers.”

This **Handbook** covers major topics in global health economics and public policy and provides a timely, systematic review of the field. Edited by Richard M. Scheffler, Distinguished Professor of Health Economics and Public Policy and Director of the Global Center for Health Economics and Policy Research at the University of California, Berkeley, the **Handbook** features academics and practitioners from more than a dozen countries. Contributors are from the London School of Economics and Political Science, Catolica University in Chile, Pompeu Fabra University in Barcelona, University of York, University of Oslo, London School of Hygiene and Tropical Medicine, University of California – Berkeley, University of California – San Francisco, Stanford University, Johns Hopkins University, University of Toronto, University of Oxford, Harvard Medical

School, OECD, and the World Bank, many of whom have also acted as economic and policy advisors to government and non-governmental organizations across the world. The **Handbook** spans across three volumes. The chapters deal with key global issues in health economics, are evidence-based, and offer innovative policy alternatives and solutions. The **Handbook's** approach toward global health economics and public policy will make it a useful resource for health economists, policymakers, private sector companies, NGOs, government decision-makers and those who manage healthcare systems.

## TABLE OF CONTENTS

### VOLUME ① The Economics of Health and Health Systems

Covers topics such as the financing of health systems, measuring and forecasting health care costs, resource allocation and health system performance

#### Introduction by Richard M. Scheffler (Editor)

1. Healthcare Spending and Economic Growth (*Edit V Velényi*)
2. Macroeconomics, Trade and Health (*Richard Smith, Marcus Keogh-Brown and Johanna Hanefeld*)
3. Measuring and Forecasting Global Health Expenditures (*Thomas Getzen*)
4. Economics of Financing Health Care (*Alexander S Preker, Sherry Glied, Dov Chernichovsky and Marisa Gil Lapetra*)
5. Alternative Financing Strategies for Universal Health Coverage (*Joseph Kutzin, Winnie Yip and Cheryl Cashin*)
6. Global Risk-Adjusted Payment Models (*Camilo Cid, Randall P Ellis, Verónica Vargas, Juergen Wasem and Lorena Prieto*)
7. Resource Allocation and Priority Setting in Health Care Systems (*Guillem Lopez-Casasnovas and Laura Pellisé-Urquiza*)
8. Estimating Health Care Treatment Costs: Problems and Solutions (*Alistair McGuire and Maria Raikou*)
9. Incentivizing Health Care Utilization and Health Outcomes (*William H Dow, Justin S White and Stefano M Bertozzi*)
10. Economic Evaluation of Healthcare Programs and Interventions: Applications to Low- and Middle-Income Countries (*Paul Revill, Beth Woods and Mark J Sculpher*)
11. Inequalities and Inequities in Health and Health Care (*Marisol Rodríguez and Rosa Urbanos-Garrido*)

### VOLUME ② Health Determinants and Outcomes

Covers aging, mental health, obesity, smoking, as well as women's and children's health

#### Introduction by Richard M. Scheffler (Editor)

1. Mental Health (*Martin Knapp and Valentina Lemmi*)
2. Aging and Long Term Care (*Audrey Laporte and Meghan McMahon*)
3. Dental Care (*Marko Vujcic, Eduardo Bernabé, Daniela Garbin Neumann, Carlos Quiñonez and Elizabeth Mertz*)
4. Personalized Medicine: Economic Evaluation and Evidence (*Katherine Payne, Ken Redekop and Kathryn A Phillips*)
5. Social Capital and Health (*Lorenzo Rocco and Eline Aas*)
6. Economics of Tobacco Control and Health (*Ayda Yurekli, Nigar Nargis, Mark Goodchild, Chonlathan Visaruthvong, Sophia Delipalla, Evan Blecher, Anne-Marie Perucic, Teh-wei Hu, Anita Lee and Frank Chaloupka*)
7. Health Effects of Alcohol Consumption (*Catherine R Lau and Alex Lau*)
8. Obesity (*Franco Sassi, Marion Devaux and Michele Cecchini*)
9. The Economics of Women's Health and Healthcare: From Conception to Grave (*Marcella Alsan, Afsan Bhadelia, Patricia Foo, Corinna Haberland and Felicia Knaul*)
10. The Role of Policy Making for Investing in Women's and Children's Health (*Flavia Bustreo, Shyama Kuruvilla and Jennifer Franz-Vasdeki*)
11. Behavioral Economics: Health Applications in the US (*Douglas E Hough*)
12. Behavioral Economics: Health Applications in the UK (*Adam Oliver*)

### VOLUME ③ Health System Characteristics and Performance

Covers primary care, hospital performance and quality, global human resources for health, and the education and training of health professionals, medical technology, and innovation in health care

#### Introduction by Richard M. Scheffler (Editor)

1. Hospital Quality and Performance Around the Globe (*Barbara McPake*)
2. Global Human Resources for Health (*Joanne Spetz, Michelle S Téllez and Brent D Fulton*)
3. Impact and Costs of Pharmaceuticals and Biotechnology (*Panos Kanavos*)
4. Technological Innovation in Health Care: A Global Perspective (*Sheila Smith*)
5. Primary Care: Effectiveness and Costs (*Tor Iversen*)
6. Health Systems Performance (*Peter Berman*)
7. Pay for Performance in Health Systems Around the Globe (*Richard Scheffler and Jed Friedman*)
8. Medical Tourism (*Johanna Hanefeld, Thinakorn Noree and Richard Smith*)
9. Public Private Partnerships (*Pedro Pita Barros and Rui Sousa Monteiro*)
10. Translational Health Economics (*Wolf Rogowski, Jürgen John and Maarten J Ijzerman*)

**Readership:** Health economics students, health economists, policymakers, private sector companies, NGOs, government decision-makers and individuals who manage healthcare systems.
